PATH OF *hope*

THE PROCESS TO STORE OR DONATE
BIRTH STEM CELLS

1) Enroll

To determine if you qualify, complete the online eligibility questionnaire.

2) Connect

You will be assigned a personal point of contact to answer any questions.

3) Receive Kit

Once you complete enrollment, your kit will be shipped to your home.

4) Give Birth

Following your delivery, contact us so we can arrange kit pickup.

5) Give Hope

Based on your choice, we will store or donate your birth tissue stem cells.

#GiveBirthGiveHope

MAKE THE RIGHT CHOICE DECIDE TODAY

Stem cells found in birth tissue are routinely discarded. Don't waste the opportunity to use them for your family, or for others.

DONATED FOR RESEARCH

TREATMENT NOW

There are three potential applications for donated tissues:

- Placed into a biorepository in case they are needed for a patient in the future.
- Used by scientists for research and development of new treatment options.
- Distributed to medical companies for current cell & tissue therapies for treatment.
